## Journal of Oral Pathology & Medicine 2020

| <b>Oral and Maxillofacial Surgery</b>  |         |
|--|---------|
| Title  | Pages   |
| <a href="#">Cytokeratin 19 as a biomarker of highly invasive oral squamous cell carcinoma with metastatic potential</a>  | 1-7     |
| <a href="#">Periosteal reaction as a risk factor for poor outcomes after surgical treatment for medication-related osteonecrosis of the jaw: A retrospective analysis of 205 surgeries</a>   | 8-13    |
| <a href="#">Correlation among the fractured facial bones in a teaching hospital in Malaysia: A retrospective study of recent 5-years</a>   | 14-18   |
| <a href="#">The use of biphasic calcium phosphate with or without bone morphogenic protein-2 for bone regeneration during immediate implant placement in a micropig model: A pilot</a>       | 19-25   |
| <a href="#">Usefulness of objective evaluations by fluorescence visualization device for differentiating between superficial oral squamous cell carcinoma and oral lichen planus</a>         | 26-32   |
| <a href="#">FOXP3 lymphocyte status may predict the risk of malignant transformation in oral</a>   | 33-39   |
| <a href="#">A venous aneurysm in the buccal mucosa region</a>  | 40-43   |
| <a href="#">Application of the dredging method in a case of recurrent ameloblastoma that had spread over a large region of the mandible</a>  | 44-48   |
| <a href="#">A case of spindle cell/pleomorphic lipoma on inferior border of the mandible</a>   | 49-52   |
| <a href="#">A case of maxillary partial aseptic necrosis after Le Fort I osteotomy</a>   | 53-56   |
| <a href="#">Ameloblastic fibrosarcoma—A case report</a>  | 57-60   |
| <a href="#">Method to control tongue position and open source image segmentation for cone-beam computed tomography of patients with large palatal defect to facilitate digital obturator</a> | 61-64   |
| <a href="#">Quality of life assessments in maxillofacial trauma patients – A systematic review</a>   | 87-92   |
| <a href="#">The effects of different plate fixation methods in the zygomaticomaxillary complex: A finite element analysis</a>  | 93-100  |
| <a href="#">Trismus caused by scarring from refractory major recurrent aphthous stomatitis</a>   | 101-103 |
| <a href="#">Recurrent clear cell carcinoma of the tongue base with high grade transformation in a pregnant patient</a>   | 104-108 |
| <a href="#">Secondary ameloblastic carcinoma in the midline of the mandible: A case report and literature review</a>   | 109-113 |
| <a href="#">A rare intraosseous schwannoma in the maxillary left incisor region: A case report</a>   | 114-119 |
| <a href="#">Pilomatricoma totally calcified in a child: A rare presentation</a>  | 120-123 |
| <a href="#">A case of mediastinal emphysema caused by root canal treatment using Er: YAG laser</a>   | 124-128 |
| <a href="#">Dental treatment for patients with Nakajo-Nishimura syndrome: Report of three cases</a>  | 129-131 |
| <a href="#">Tibial healing after secondary alveolar bone grafting: Usefulness of ultrasonography</a>   | 177-183 |
| <a href="#">An analysis of the dental patient safety incidents occurring in the oral and maxillofacial surgery department</a>  | 184-189 |
| <a href="#">Giant hemangioma involving the tongue: A surgical strategy to improve quality of life</a>  | 190-194 |

|  |         |
|--|---------|
| <a href="#">Preauricular solitary fibrous tumor: A case report of uncommon neoplasm arising from the facial region</a>   | 165-199 |
| <a href="#">Prader-Willi syndrome with a cleft palate: A case report</a>   | 200-204 |
| <a href="#">Extraction of a tooth with apical periodontitis in an adult with cherubism</a>   | 205-211 |
| <a href="#">Inferior-based Nasolabial Flap for the Surgical Treatment of Stage 3 Medication-Related Osteonecrosis of the Maxilla: A Technical Note</a>                             | 212-215 |
| <a href="#">Investigation of the analgesic effect of platelet-rich fibrin on postoperative pain after mandibular impacted wisdom tooth extraction</a>                              | 237-240 |
| <a href="#">Efficacy of autologous platelet rich plasma gel in soft and hard tissue healing after surgical extraction of impacted mandibular third molar - A prospective study</a> | 241-246 |
| <a href="#">Four supernumerary teeth in central anterior maxilla: Report of a case</a>   | 247-250 |
| <a href="#">Chondroblastoma arising in the temporal bone: A case report and literature review</a>  | 251-256 |
| <a href="#">A case of peripheral ameloblastoma that developed in the maxillary gingiva of child</a>  | 257-260 |
| <a href="#">A case of successful oral commissure and vermillion reconstruction following extensive full-thickness cheek resection of advanced buccal carcinoma</a>                 | 261-266 |
| <a href="#">Hyalinizing clear cell carcinoma of the anterior lingual salivary gland: A case report and review of the literature</a>  | 267-274 |
| <a href="#">A case of descending necrotizing mediastinitis caused by odontogenic infection</a>   | 275-280 |
| <a href="#">Mandibular ameloblastoma with papillary hyperplasia in the gingiva: A case report</a>  | 281-284 |
| <a href="#">Pediatric cemento-ossifying fibroma of the anterior mandible: A case report</a>  | 285-290 |
| <a href="#">A case of Warthin tumors that were suspected to be lymph node metastases of maxillary gingival cancer</a>  | 291-295 |
| <a href="#">Navigation surgery with an all-in-one splint for impacted tooth root removal</a>   | 296-299 |
| <a href="#">White sponge nevus mimicking intraoral white lesion on the buccal mucosa: A case</a>   | 300-302 |
| <a href="#">Computer-assisted surgery to treat fracture of an atrophic mandible</a>  | 303-306 |
| <a href="#">Changes in signalling pathways in the palatal cleft in CL/Fr mice</a>  | 331-335 |
| <a href="#">Conventional 2D miniplate versus 3D four-holed and eight-holed miniplates in the management of mandibular angle fractures</a>  | 336-347 |
| <a href="#">Management of sialolithiasis with sialendoscopy alone: Evaluation of the size and location of removed calculi</a>  | 342-346 |
| <a href="#">Evaluating high-mobility group box 1 protein serum levels amongst Iranian patients with oral squamous cell carcinoma</a>   | 347-350 |
| <a href="#">Hydrocortisone irrigation for postoperative control of edema in inferior third molar removal – A pilot study</a>   | 351-355 |
| <a href="#">Clinical investigation on sarcoma in oral and maxillofacial regions: A multicenter retrospective analysis in Japan</a>   | 356-359 |
| <a href="#">Comparative radiological assessment of orbital volume restoration following management of zygomatic complex fractures</a>  | 360-365 |

|  |         |
|--|---------|
| <a href="#">Inferior alveolar nerve paresthesia caused by the extrusion of calcium hydroxide-based paste into the mandibular canal: A case report</a>                                      | 366-369 |
| <a href="#">Dento-alveolar reconstruction using titanium mesh and bone grafting followed by dental implants placement for malunion and maloclusion after a maxillo-mandibular fracture</a> | 370-376 |
| <a href="#">Methemoglobinemia due to prilocaine use during jaw deformity surgery: A case report</a>  | 377-379 |
| <a href="#">Rare case of Kimura disease of the upper lip: A case report</a>  | 380-386 |
| <a href="#">Two cases of oral squamous cell carcinoma that achieved complete response through interstitial hyperthermia after the patients refused surgery</a>                             | 387-393 |
| <a href="#">Study of treatment with hyaluronic acid combined with platelet rich plasma in the in vivo regeneration of defects in articular discs of temporomandibular joint</a>            | 425-440 |
| <a href="#">Clinical application of virtual reality to alleviate anxiety during oral surgery under local anesthesia</a>  | 441-444 |
| <a href="#">A case of cavernous hemangioma of the temporalis muscle</a>  | 445-449 |
| <a href="#">A case of coronoidectomy simulated using threedimensional models and surgical guide for severe trismus caused by bilateral coronoid hyperplasia</a>                            | 450-453 |
| <a href="#">Self-induced subcutaneous cervicofacial emphysema associated with a defect of external auditory canal</a>  | 454-457 |
| <a href="#">A case of ganglion cyst of the temporomandibular joint accompanied by osteoarthritis</a>   | 458-461 |
| <a href="#">Orthognathic surgery for patients with venous thromboembolism during treatment: Two case reports</a>   | 462-465 |
| <a href="#">Alloplastic Temporomandibular Joint Replacement in Ankylosing Spondylitis – Report of a case with review of literature</a>   | 466-472 |
| <a href="#">Adenomatoid odontogenic tumor associated with an unerupted primary tooth</a>   | 473-476 |
| <a href="#">Intracranial extension of Lemierre's syndrome from odontogenic cause: A review and case report</a>   | 477-483 |
| <a href="#">Marked improvement of breathing status by surgical mandibular advancement in a patient with Treacher-Collins syndrome</a>  | 484-487 |
| <a href="#">Squamous cell carcinoma of the buccal mucosa with multiple distant metastases</a>  | 488-492 |
| <a href="#">Navigation-assisted transoral resection of a large maxillary odontogenic myxofibroma using rigid endoscopy</a>   | 493-497 |
| <a href="#">Alternative successful functional recovery of total full-thickness velar defect following recurrent oropharyngeal carcinoma resection: A case report</a>                       | 498-502 |
| <a href="#">Bite injury related to oromandibular dystonia extending to the maxillary sinus: A case</a>   | 503-506 |
| <a href="#">Clear cell carcinoma in the retromolar area: A case report</a>   | 507-513 |
| <a href="#">Chondrosarcoma in the condyler head: A case report and review of the literature</a>  | 514-520 |
| <a href="#">A case of oral lichenoid reaction during nivolumab therapy</a>   | 521-524 |

|   |         |
|---|---------|
| <a href="#">Multiple canalicular adenomas arising in the buccal mucosa and upper lip: Case report and literature review</a> | 525-528 |
| <a href="#">Image-guided removal of deeply impacted mandibular third molar using a navigation</a>                           | 529-533 |
| <a href="#">Dengue fever complicating orbital floor repair</a>  | 534-537 |

| <b>Oral Medicine</b>   |         |
|--|---------|
| Title  | Pages   |
| <a href="#">Alteration of plasma free amino acids' level in oral squamous cell carcinoma patients using High Performance Liquid Chromatography</a> | 65-71   |
| <a href="#">A rare mandibular osteosarcoma case of Li-Franmeni syndrome with a germline p53R273H mutation</a>                                      | 132-135 |
| <a href="#">Oral self-injury associated with septicaemia in a case of Cornelia de Lange syndrome</a>   | 136-139 |
| <a href="#">Metastasis of malignant pleural mesothelioma to maxillary gingiva: A case report and literature review</a>                             | 140-144 |
| <a href="#">Oral varicose veins: Clinical features and its association with medical conditions</a>   | 216-221 |
| <a href="#">A case of giant cell arteritis with jaw claudication and trismus treated with early steroid</a>  | 222-225 |
| <a href="#">RETRACTED: Contact co-culture of osteoblasts and sympathetic neuronal cells enhances osteoblast differentiation</a>                    | 307-312 |
| <a href="#">A case of large varix including partially organizing thrombosis on the oral floor</a>  | 313-315 |
| <a href="#">Soluble factors mediate the interaction between Schwann cells and osteocytes</a>   | 394-399 |
| <a href="#">Activation of the RAS/ERK signaling pathway by RASAL1 and its clinical significance in squamous cell carcinomas of the tongue</a>      | 400-405 |
| <a href="#">Palatal hyperpigmentation associated with imatinib mesylate: Two cases of Chinese ethnicity</a>  | 406-409 |
| <a href="#">Diagnostic and prognostic value of salivary biomarkers in oral cancer and precancer: Review article</a>                                | 538-543 |
| <a href="#">An intriguing case of intra-osseous migration of bilateral mandibular second molars: A report of a rare entity</a>                     | 544-548 |

| <b>Oral Pathology</b>  |         |
|--|---------|
| Title  | Pages   |
| <a href="#">Oral and cutaneous manifestations of langerhans cell histiocytosis: report of two cases</a>  | 72-75   |
| <a href="#">Palatal solitary neurofibroma simulates a salivary gland neoplasm</a>  | 76-78   |
| <a href="#">Dedifferentiated chondrosarcoma of the maxilla. Report of a rare tumor in an extremely rare localization</a>                                   | 79-82   |
| <a href="#">Foreign body granulomas in oral tissues as a complication of injectable dermal fillers: A case report</a>                                      | 145-148 |
| <a href="#">Two cases of odontogenic carcinoma with sclerosing features in the mandible: Diagnostic difficulties in a sclerosing odontogenic carcinoma</a> | 149-155 |
